HURLEY'S

SARSAPARILLA.

THIS INVALUABLE COMPOUND, so fully appreciated by the American people, is gaining wide celebrity, and has become permanently established the best and most effective medicine of the day.

Certificates are daily sent in from all parts of the State, and the afflicted now rejoice that there is help when every other remedy proves ineffectual.

Diseases which for years proved a source of misery and agonizing torture, readily yield to the irresistible influence and curative power of this medicine.

It is a powerful and reliable remedy for all diseases of the blood, and is the only one that can be relied upon for a cure.

For out of thousands of cases scattered through Alabama, Mississippi, Wisconsin, Indiana, Missouri, and Kentucky, it has never in a single instance been known to fail, and will cure beyond all doubt.

Dyspepsia or Indigestion, Scrofula or King's Evil, Affections of the Bones, Syphilis, Debility, Habitual Constipation, Erysipelas, Pulmonary Diseases, Liver Complaint, Piles, Female Irregularities, Flatulency, Skin Diseases, Diseased Kidneys, and as a great and powerful Tonic, purifying the Blood, and invigorating the entire System.

Unlike other compounds which, when first introduced, are said to possess medicinal qualities, but soon degenerate into injurious trash, this highly concentrated fluid Extract is prepared with the greatest care and skill, and is the only one of its kind that can be relied upon for a cure.

Its extensive popularity and wide spreading fame, coupled with unparalleled cures, effected by its agency, have gained both public confidence and professional reliance. Therefore, hereafter, let the undersigned be the only one to be relied upon for a cure.

My daughter has been afflicted with skin diseases and stiffness of the joints for several years. I employed the principal physicians of this city, and they could not cure her. I gave her your Sarsaparilla, not expecting it would do much good, but to my great satisfaction, she rapidly got well, and thank God, continues so. Had she been taking any other medicine, I would not give this certificate, but your Sarsaparilla, the only remedy employed, leaves no doubt of its medicinal qualities, and that it alone cured her.

From the Ky. State Flag.
GEORGETOWN, Ky., Sep. 15.
S. GARFIELD, Esq.

DEAR SIR: I regret your conclusion not to publish my first letter on the subject of commercial-intercourse with the abolitionists of the north; because in that letter I endeavored to assign the reasons why I supposed that such a position assumed and firmly maintained by the south, would give to our political friends at the north a certain victory at the polls, over the abolitionists. At the first view, it seemed extremely strange to suppose such a result from a measure so well-calculated to ruin the north commercially. The result, however, proceeds from the amicable, but firm, position of the south, and from the complete resemblance of our system of retaliation to their system of aggression, as well as from the fact, that the apparent majority of the abolitionists in the northern States is altogether fictitious. They derive all their political consequence from the fact, that they are more numerous in the various congressional districts than the difference between the whig and democratic parties, and as a result of this, and not as a result of their own merits.

This faction has crushed the spirit and moral firmness of aspirants to congress by ramblingly holding on to its ideas, and playing between the two parties; whereas, in truth, every northern State contains, within the democratic and whig parties, more than enough of patriots to crush this faction at a blow.

If, now, the south will take, not a violent, but a firm position, and analogous in its principles, to the injuries received by us, and then throw upon the north the responsibility of deciding upon our relations, we will unquestionably thus unite every lover of the Union and of justice in the democratic and whig parties against the abolitionists, and thus easily wrest from their hands all the political power which they have achieved by playing between those parties. I of course do not hope or desire that our friends at the north shall advise us to this position. That would destroy their moral force in their various States, but let us take our position like men, upon our views of honor, and of right, and let them decide between us and the abolitionists. I have not the least fear of the nature of that decision, if we can make this issue with the faction.

I have full confidence in the virtue and patriotism of the north, if we can in this way constitute it the judge between us and the abolitionists. Let the Union men of that region be gathered in one body from the democratic and whig parties by the nature of the question which we will present them, and all men would be astonished at their tremendous majority in a region entirely represented now by abolitionists.

I am not so Quixotic as to suppose or desire that this issue should unite them longer than may be required for the complete destruction of the common enemy of all, and despot over, both. When that great work shall be accomplished they will again be speedily organized into progressive and conservative parties to the great advantage of the nation; but until this be done, this desperate faction will continue to agitate measures fatal to the nation, and utterly subversive of all power in both parties to carry forward any measure for the common welfare of the Republic.

I hope that I make myself understood. I believe that the adoption of a system of commercial non-intercourse, by the south to take effect at some future fixed period, will throw upon the north the decision of the question of our future relations. In the decision of this question at the polls, I believe that our friends at the north, whether they be democrats or whigs, will triumph over the abolitionists by tremendous and overwhelming majorities; and that thus this dangerous faction will be peacefully overthrown, by the votes of the northern people before our system of retaliation would take effect and peace be happily restored to the nation.

I defy any man to point out any other mode for the peaceful suppression of this faction. Without some action by the south, which the north may recognize as an ultimatum, they will not unite for its destruction. As long as abolitionists can offer as its bribes, seats in congress, it will have holders in both parties. This is the secret of its power.

Very respectfully, yours,
GEORGE W. JOHNSON.

RAPID AND INCREASING. James Griffin, a man about 38 years of age, a resident for many years of the neighborhood of Lexington in this county, but more recently of the neighborhood of Washington, was arrested on Thursday, on a charge of rape upon his own daughter, a very pretty young woman of 18 years. The daughter was promiscuously delivered of a child (which lived only a few minutes) on the 27th of July last, and then disclosed its paternity; but the awful nature of the outrage was concealed, perhaps out of a not improper sympathy for the daughter, until a few days since.

The father was tried yesterday, before Esq. S. S. Jones and Arthur, the Examining Court, on an instance of the accused, and in accordance with a special provision of the Revised Statutes, sitting with closed doors. About 5 o'clock P. M., the Court adjourned to this morning to hear

the remaining witnesses. It was evident from the large crowd that had continued around the Court all day, and other circumstances, that a popular outbreak was expected. Before the posse of officers with Mayor Dobyns at their head, had proceeded fifty yards with the accused on the way to jail, the officers were seized, and a desperate effort made to take the prisoner from them—it having been determined to drag him to some private place and promptly execute him.

The officers maintained their ground firmly, and although pistols and knives were drawn and violence feared, they succeeded in making a footrace of it and beat the crowd to the jail, where they lodged the prisoner safely. The excitement continued high during the night, although the crowd retired immediately from the jail; and this morning, we believe, the public generally, in their sober second thought, are satisfied that the prisoner was kept out of their reach, and are willing for the law to take its course.

The impression is general that the prisoner is guilty. The examining court this morning, committed him to jail, in default of \$3,000 bail. His trial at the circuit court will probably come off in two weeks.

The penalty for the crime of rape is—confinement in the penitentiary for not less than 10 nor more than 20 years; and for that of incest, for from 2 to 6 years.—*Mayville Eagle, Sep. 20.*

Sevastopol Fallen!

20,000 Allies and 10,000 Russians Slain.

Five French Generals Killed.
The steamship America arrived at Halifax yesterday, bringing one week later news from Europe. The following highly important despatch, announcing the fall of Sevastopol, was received yesterday afternoon. The sympathies of the mass of the American people are with Russia, and this announcement will be unwelcome news to thousands in this country:

HALIFAX, Sept. 27.
The steamship America arrived this forenoon from Liverpool, with European dates to the 5th inst. She brings the most important news from the Crimea, announcing the fall of Sevastopol, so long and anxiously expected, on the 8th; after a bombardment of three days and six repulses, one being a severe repulse of the French, with terrific slaughter at the Redan fort, before Malakoff tower, in which the English and French troops lost about 20,000, and the Russians more than half that number.

The enemy evacuated the town after blowing up the defences and shelling all their ships and firing the city, leaving nothing but a mass of smouldering ruins. The total loss in this terrific affair is more than 30,000. 5 French generals included. Gen. Bosquet is among the killed. A large allied force is marching along the coast to intercept the inland retreat of the Russians. The allies have captured an immense amount of the materials of war.

It is reported that the allied Generals have demanded the unconditional surrender of all the Russian troops, stores, and defences in the Crimea, including the town of Odessa.

An attempt has been made to assassinate Napoleon.

An Incident Worthy of Notice.
Actions frequently speak much louder than words. Let the following incident then be read and reflected upon.

A short time since, two slave-holders in Oldham county had the misfortune to lose some of their servants. They forthwith started in pursuit of them, and upon arriving at Indianapolis, Ia., they determined to advertise them. Being known nothing themselves, they very naturally inquired for the know nothing printing offices, and referring to one of them, made themselves known as belonging to the order, and stated their business. To their utter surprise their advertisement was declined. They then went to the other know nothing office in the place, where they met a like reception. Neither of them would do that much to aid in the arrest of the fugitives. Mortified and disappointed they proceeded to one of the Democratic offices, where, without any words or objections, their advertisement was received and inserted. Are not such facts significant? Do they not show what know nothings are across the river? and should they not open the eyes of the people of the South to the true state of affairs? The know nothing abolition paper in this city still publishes, we believe, the advertisements of runaway negroes, but how long it will continue to do so will depend in a great measure on the extent, growth, and development of know nothingism among its Northern brethren.—*Low. Courier.*

Know Nothingism in Louisiana.
AN IMPORTANT QUESTION.—Will the President, the Sec. or the Congress be able to inform the good people of this State what is the religious belief of Charles Derbigny, the know nothing candidate for Governor?

Yes, gentlemen, we will take pleasure in telling you.
Judge Derbigny is a Catholic. There is no mistake about it. The writer of these lines heard him say so, and believed him, for no one can look upon his venerable form, his white hair, his open, manly and intelligent countenance, and believe him capable of telling an untruth, either directly or by implication. We believe, also, that he came from good Catholic stock; and that he has never been wanting in duty to the faith of his fathers. If there is anything objectionable in these facts, we trust the "know nothing" will not be slow in making them public.—*S. O. Courier.*

Bishop Smyth. This distinguished divine preached on Sabbath preceding last in the Episcopal Church, at a unusually large audience, an exceedingly interesting, practical sermon, upon the necessity of a closer union between orthodox protestant denominations. In the course of his remarks, he alluded to a dignified christian spirit, the disposition of the clergy, to unite in political action, and forget the object of their holy mission. In the excitement of party strife.—*Mayville Express.*

The "Model History" of know nothingism has been written by the editor of the San Antonio Ledger. Here it is:

In the years of our Lord, 1854-55, there arose in a free land, a party, secret, political and proscriptive, proposing to exclude from eligibility to office, those whom the Constitution and the laws had made eligible, and this unlawful combination met at the ballot-box, and defeated. Such will be the brief record of the political historian. So perish all aristocracies.

During the week ending on the 17th, there were received at Buffalo, by lake, 39,080 bbls flour, 334,137 bushels of wheat, 323,525 bushels corn, and 61,596 bushels oats.

A. & D. E. HARCOURT. Aug. 23, 1855-26-4t

OUT OF JAIL.—We learn from the Evansville Journal that the county clerk of Evansville, who was recently confined in jail at that place, for contempt of court, in refusing to testify in a liquor case, has been released.

Ha! ha! ha! That gentleman, we are pleased to say, has acted as independently and honorably as we did upon a similar occasion; and he has also suffered as we did, from the malicious persecution of hide bound fanatics; *fac simile* of whom might be identified even in this boasted land of chivalry and liberal sentiment. We cordially congratulate and commend the gentlemen for his bold, manly and honorable refusal to become an informer! even at the risk of being illegally and maliciously incarcerated in jail.

If our surmise be correct with respect to the character—or rather the want of honorable character on the part of his persecutors, we would advise him to adopt our mode of retaliation; that is, indite a 'jail bird's song' for the comfort and consolation of his persecutors, who thus, like ours, proved themselves incapable of appreciating the honorable principles by which he was governed, in his refusal to 'become a base informer.'

To give him a gentle hint as to the proper mode and manner of concocting such an efficient weapon of retaliation as 'outs proved to be, we will try and put him up a copy of our triumphant song, upon the eve of being relieved from 'duration vile,' by an all powerful writ of *habeas corpus*. The effect of the discharge of this blunderbuss was immediately perceptible, for straight away we heard—'Stop! stop my paper!' from lips at least a score!

And 'some paid then, who never paid before!'

Public Sale.

The sale of the extensive and valuable property of Rev. Evan Stevenson, as will be seen by his advertisement in another column, will take place this day, Oct. 4, commencing at 2 o'clock, P. M. As he is determined, if possible to effect a sale, and the property is in every way worthy of the attention of those who wish to make permanent investments or of speculators, as well as the public generally, it behooves them to attend the sale. Besides the family mansion there are several beautiful sites for dwellings, and if desired the farm will be divided, so as to give a chance to secure admirable locations for country residences, in the immediate vicinity of town. Now is your time for bargains and speculations, gentlemen; for our esteemed friend EVAN is bent on a sale; and in large or small trades he never quibbles or cavils about trifles.

WE regret to learn, through the courtesy of WILL GAINES, Esq., that our esteemed young friend, Robt. Read, brother of John Read, Esq., both formerly of this town, deceased at Vicksburg, during the recent prevalence of Yellow Fever in that city, of that fearful disease.

We know him well, and few of his age, at the period of his residence here, were more highly appreciated for moral worth and sterling integrity. He has gone! cut off in the flower of vigorous youth; in all the bright hopes of early manhood; we deeply sympathize with his friends and relatives, by whom he was greatly beloved; his apparently untimely demise will be lamented by all who knew him; for of him it may truly be said—
'None knew but to love him;
None named him but to praise!'

ASTOUNDING FRAUD.

A most astounding fraud has been discovered, which has been perpetrated in the transmission of \$50,000 from the Land Office at Debuque to New York. The boxes containing, as was supposed, \$50,000 in gold, when opened in New York were found to contain nothing but lead. They were sent by the American Express Company from Dubuque, and were two in number, and should have contained \$25,000 each in American gold.

HAD THEIR DAT.—The New York Times says the know nothings have had their day, and very soon there will be nothing left of them but their name. The earth hath bubbles, and know nothingism was one of them.

WE take pleasure in copying from the Frankfort Temperance Advocate, the following complimentary, but just and well deserved notice of the Georgetown Female Institute, of which G. R. Hand, Esq., is the highly respected, courteous and generally esteemed proprietor. The Institution, its competent teachers, including the accomplished and amiable lady of the proprietor, and the discipline there maintained, are worthy of all commendation and general patronage. But hear what Judge Hord, a good judge of Literature and Educational Institutions, has to say with respect to the superior merits of the

Georgetown Female Institute.

Our readers will find in another column the advertisement of this institution. It is located in one of the most beautiful and healthy villages in Kentucky. The buildings and grounds are all that could be desirable in a seat of learning, and our worthy friend, G. R. Hand, the proprietor, is one of the most excellent gentlemen and teachers in the State. We thank him for the favor of allowing us to become one of the mediums of making his institution known to the public, and we take great pleasure in recommending him to public patronage.

And while upon this subject, we would remark that our paper is read in nearly every county in Kentucky, and while any patronage we may receive as an advertising medium, aids a good cause, we feel confident that those who favor us in that way will be amply remunerated by the additional patronage received.

WE find in the Paris Flag of last week, a letter from George W. Johnson, Esq., which will command the attentive perusal of the great mass of our readers; and which we take pleasure in transferring to the columns of the Herald. It will be found on the second page of this day's paper.

A LARGE HOG.—Mr. William Price, of Bridge Farm, Vermillion county, Illinois, has a pig three years old which weighs one thousand pounds. He was not fed last summer, but run on blue grass. His length is seven feet two inches, height three feet five inches, and girth around the body six feet six inches. He has grown three inches this summer, and the owner is of opinion that if he is kept until he is six years old, he will be the largest hog in the Union.

THE BROOKVILLE [La.] AMERICAN says that stock hogs, large enough to fatten this fall were sold in Franklin county, a few days ago, at \$5.00 per hundred, and some farmers had refused \$5.50. Those farmers (remarks the Indianapolis Journal,) like some that held on to their corn and wheat, after prices had nearly reached starvation mark, for still higher prices, stand a first rate chance to lose considerably by being over-greedy. Such enormous prices won't be kept up, and those waiting for a rise will be more likely to feel the 'hoist' themselves than see it in the hog market.

THE PORTER OF PHYSIC. Doses have always been associated in our minds with wry faces, and medicine has seemed from the days of childhood, another word for nausea and disgust. Its remedies were the worst part of sickness, and pain was not so hard to bear as the revolting potions we were compelled to swallow for its relief. Dr. Ayer's preparations herald another era. His *Cherry Pectoral* is like honey on the tongue, and healing balm in the stomach. His Pills! Try them—they are sweet morsels to the taste, and glide sugar-shod over the palate, but their energy although wrapped up, is there and strikes with telling force to the very foundations of disease.—*Cincinnati Citizen, O.*

BISHOP SMITH says he thinks ministers of the gospel travel very much out of their way to preach politics to the people. What a pity it is that some ministers don't go to hear the Bishop on some occasion instead of pouring into the ears of their congregations such tirades of abuse and denunciation against the poor old Pope, who can hardly count on a single friend.

THE CINCINNATI CHAMBER OF COMMERCE, in a recent report on the business of that city, state that there are not less than 2,000 acres of Catawba vines in cultivation in the vicinity of Cincinnati, of which 1,600 acres are in full bearing; and that, by the average production of the last few years, this area will yield 800,000 gallons of wine annually, and, in a very short time, must be greatly increased.

EXPERIENCE IN STARTING A PAPER.—Col. Fitzgerald, of the Philadelphia City Item, in speaking of the 'life and death' struggle incidental to the infancy of a paper, says in the young days of the Item he was forced to 'paw his watch sixteen times to raise money to pay his hands.'

Appointment by the Governor.

A. G. CAMMAQUE, Esq., to be Quartermaster General, in the place of E. H. Tole.

The Fall of Sebastopol.

When the dispatches were first received, it was supposed that the allies had gained possession of the whole of Sevastopol. The belief now is that it is only the South part of the town that has been taken, and that the whole North part [said to be the strongest part] is still in possession of the Russians.

The Edinburgh Review for July contained an able article on the siege of Sevastopol. It gave at the outset an elaborate and authentic account of the defenses of the place, first describing the forts erected to guard the entrance to the harbor, and then proceeding as follows:

Turning from the harbor to the land defenses of the place, it does not require to be a great engineer to perceive that the most vulnerable point of the whole place is the high land on the North side of the harbor. An enemy in possession of these heights commands not only the harbor itself but also the town, which is spread before him like the seats of a Greek theatre, as seen from the stage, and he could destroy every building in it with ease. By occupying this position the besieger virtually cuts off the communication between the town and the base from which alone relief can be expected. It is, in fact, the key of the whole position.

This North side is yet in the hands of the Russians, with 150,000 soldiers between the Allies and victory.

THE LOWELL (Mass.) COURIER says: "Drunkness is on the increase in this city. The idea of legislating people into sobriety is a humbug, of which there is all about us such abundance of evidence that 'the who runs may read.'"

THE MAYSVILLE EXPRESS notices the escape of a number of slaves from that city recently by the underground railroad.

GOOD CORK CROPS.—There are farmers, it is said, within one mile of Nebraska City, who will be lauded, as sums that they have fields of corn which will yield one hundred bushels per acre.

IT is proposed by the Louisiana planters to remove the sugar mart from New Orleans to Algiers on the opposite bank of the river.

HEAVY VERDICT.—In the case of Barbers, the Mad River and La'rie Erie Railroad, for damages sustained while in the employ of the company as conductor of a freight train, the jury returned a verdict of \$6,500 damages.

A vein of coal of the cannel kind, six feet in thickness has been discovered on the route of the Rock Island Railroad, eight miles from Rock Island, Ill.

THE LAFAYETTE (Ind.) JOURNAL says that a few catties have been made for hogs in that county at \$5, although the views of buyers and sellers are generally a long ways apart.

LIBERAL BEQUESTS.—The late Joseph P. Fairbanks, of Johnsbury, Vt., bequeathed \$10,000 to Middlebury College, \$10,000 to constitute a fund for the support of aged and infirm ministers, and a like sum in aid of poor young men preparing for the ministry.

SOMETHING NEW IN THE COURSE OF TRADE.—The Memphis (Tenn.) Whig says that shipments of wheat were made from that port on the 5th inst., destined both for New York and Liverpool. The like was never known previous to the present season.

THE old racer Gray Eagle was sold at the State Fair to U. B. Smith, of Chertsville, Ohio, for \$2,000.

THE Madison Banner says that apples are selling at that place for five cents a bushel!

F. L. D. HUSBANDS, Esq., (Democrat,) has been elected Commonwealth's Attorney in the First Judicial district, without comparatively any opposition.

THE Boston papers say that large numbers of Irishmen are to visit New England for California.

HOGS.—Contracts have been made for November and December delivery at \$4 25 grovs, but holders are now asking \$4 50. The Cincinnati Gazette thinks that the opening rates will reach \$7 per 100 nett. Packers are not willing to make contracts at this figure, and there are no sellers at very much lower rates, consequently very little is being done for future delivery.

A Bedouin Arab stallion, of the celebrated Kylar breed, has arrived in Philadelphia. He is a gray, four years old. Ten thousand dollars have been refused for him.

HARTFORD, Sept. 25.

The Governor has removed the Adjutant General of the State for neglecting to disband the Irish military companies, as ordered, and has appointed another, who has performed the duty.

THE Baltimore Patriot notices a dangerous counterfeit of the denomination of \$20 on the Union Bank of Wilmington, Delaware. They are so well executed, that \$600 of them were passed on a banking house.

AMONG the Kentonians in Paris, France, on the 1st inst., were Col. John S. Williams, O. M. Anderson and A. Buchanan and family.

THE Connersville (La.) Telegraph says potatoes are a drug in that town, at fifteen cents a bushel.

THE sweeping removal of Navy officers from active service, by the act of the late Navy Board, makes room for many promotions. Thirty-five commanders will be promoted to captainties, seventy-four lieutenants to commanders, one hundred and sixty masters in the line of promotion and passed midshipmen will be made lieutenants.

NEW COUNTERFEIT.—Bank of Georgia, Painesville, Ohio, 2's, vignette male and female figure of agriculture seated on either side of an oval containing figure '2,' female head and figure 2 on each end, script below signatures, dated Nov. 13, 1854. Painesville is spelt without the 'e' in some of them. Engraving poor, paper thick and white. We think this bank issues no twos.

The Speakers.

The following gentlemen have consented to attend the Democratic Mass Meeting on the 5th proximo.

Hon. A. A. Douglas, of Ill.
Hon. Geo. E. Pugh, of Ohio.
Gov. A. P. Willard, of Indiana.
Vice President Bright, of Indiana.
Senator Broadhead, of Pa.
Hon. C. A. Wickliffe.
Col. William Preston.
Joseph Holt, Esq.
Hon. R. H. Stanton.
Hon. A. G. Talbot.

The committee, from answers received, are confident that at least one prominent national Democrat from each Northern State, will be present to warn Kentucky against the treasonable designs of Abolitionism under the garb of Abolitionism under the garb of nothingness.

LOUISVILLE CONFERENCE.—The Louisville Conference of the Methodist Church, South, commences its annual session next Wednesday, Oct. 3d, at Greenville, on Green river, some forty miles from Owensboro.

A man named Lyon has been arrested at Madison, with a large stock of counterfeit 'V's' on the Northern Bank of Kentucky.

SALES OF HOGS.—Holders of hogs for packing are very stiff at high figures, and we hear (says the Courier) of sales in Danville, Boyle county, of between 5,000 and 6,000 hogs at 4 1-2 cents gross. This is equal to 6 1-4 cents net at the pens. Some 8,000 hogs, for packing, recently sold at St. Louis at 5 to 5 1-2 cents.

A PRINTER'S DEVIL FROM WESTERN NEW YORK COMMANDING IN THE RUSSIAN ARMY. The Fredonia Censor says that Kneeland Morcutt, a native of that village, and for a year or two employed as an apprentice in the Censor office, has recently attained a high rank in the Russian service, in which he has been engaged for the last three years, and is now in command, in the Crimea, as one of the superior officers. He left Fredonia in 1849, being then 17 years old, and shipped at an Atlantic port before the mast.

Just Rebuke.

The Huntsville Advocate, a staunch Whig paper, thus rebukes the North Alabama paper for saying 'the paper anti-American':
'The Advocate is sent regularly to the North Whig. It calls us "anti-American." Well, we are just such a one as Harry Clay was, and Daniel Webster was, as Winfield Scott was, and the whole Whig party was in the last canvass; such a one as the Whigs, and such a one as the majority of the Southern people now are. We are not American enough to proscribe an entire political denomination, to bring by inevitable implication the charge of perfidy against all naturalized Catholics, and to discredit their patriotism. We are

Southern enough, however, to stand on the Georgia platform in preference to the Philadelphia one, which has been broken to pieces by the Order in Louisiana, and spurned and spat on by the entire North, wherever it has acted upon it.

LETTER FROM COUNTRY PRESS.

Wednesday afternoon. Member of the county press on a bust! dammed! Astonish Parisian Know Nothings! A hard 'un all the way from old—member of the county press! by Jolly!

'On a high falutin' spree!
Have delirium tremens may be!

REPORTER COUNTRY PRESS.

FANATICISM.—Mr. Wm. R. Preston, of Portsmouth, N. H., a highly respectable druggist, in that city, charged with the crime of selling a pint of alcohol to Mr. John K. Pickering, a respectable citizen of that city, to be used for bathing by his wife, who was quite sick. At the trial the County Solicitor stated that a plain and evident construction of the law prohibited the sale of all intoxicating liquors to the class and individuals to the extent of which alcohol entered. The Judge ordered Mr. Preston to be bound over for trial before the Supreme Court in the sum of \$500. He has given as grounds the fact, that Mr. Pickering, a member of the Episcopal Church, and the Rev. Dr. P. D. D. Doctor of the Unitarian Church, had been present in the court, in the case, and that the trial was a mockery.

The true letter of the law may be against Mr. Preston, but the spirit and intent of the law is to banish, not to injure the community. It is decided that what has been used as a drug, and has entered a hundred ways into the compassions of the sympathy as medicine and comfort, is to be suppressed, the result, we fear, is that the whole law must speedily become a nullity. There are evils, we know, attending the free sale of alcohol, but we think men will be effected to favor the cause of temperance by classing it as a drug, than by its prohibition for the general uses to which apothecaries have hitherto applied it.

A Minister suspended.

We copy the following from the Presbyterian Herald. If other denominations in Indiana would follow the example set them by the Cumberland Presbyterians, much good would be the result:

The Indiana Presbytery, of the Cumberland Presbyterians, lately tried and suspended from the functions of the gospel ministry, until he repents, under the following charges and specifications:

Charge.—Unchristian conduct.
First Specification.—For associating himself with a notorious lawbreaker, as the underground railroad, whose avowed business is to pocket slaves from slave to free territory.
Second Specification.—For actually engaging in the business of assisting slaves in making their escape from slave to free territory, which is contrary to the laws of the United States and statute laws of the State of Indiana.
Several of the witnesses stated that Mr. M. had boasted to them of the number of slaves he had aided to escape, giving the names and places in Kentucky from which they had escaped, and one of them testified that he had heard him say that he had never denied belonging to the underground railroad, and that he had said in April, this year, in speaking of the relative numbers taken to Liberia by the United States, and to Canada by underground railroad, that 12,000 had gone to Liberia and 35,000 to Canada by underground railroad. One of their parties stated that he visited one of his ministerial brethren in Kentucky, partook of his hospitality, prayed with his family, and in the mean time arranged matters with his servants to make their escape.

A NATIVE OF MARYLAND.—The religious mission to the Friendly Islands, in the Pacific Ocean, has been so successful that the entire people have become a nation of Methodists; and the whole population, from the king (who is a "local preacher") down to his meanest subject, attend the Wesleyan ministry. These islands, sometimes known by the name of Tonga, they consist of a hundred and fifty, and lie between 13 deg. and 25 deg. south latitude and 172 west, and 177 east longitude. They were discovered by the navigator Tasman, in 1643 but received the collective name of Friendly Islands from Capt. James Cook.

WE regret to learn that the cholera has made its appearance in Paris.

Markets.

LOUISVILLE, Tuesday, Oct. 2, 1855.

REMARKS.—An extremely limited business has been in doing the week, and at prices pretty much the same as last week. The stocks of all leading articles continue very small, and the high prices prevailing cause dealers to restrict their purchases to immediate wants. The fall trade for staple goods is also drawing to a close. Our merchants seem to be well satisfied with the business of the season.

The river is still in a good stage, but freights are very heavy.

Grain and Flour.—165 1/2 @ 17 1/2 for the former; 17 1/2 @ 18 for the latter.

Wheat.—165 1/2 @ 17 1/2 for the former; 17 1/2 @ 18 for the latter.
